

# ADVERTISING, COMMEMORATIVE AND SOUVENIR CRIBBAGE BOARDS

By Thomas F. O'Gara (#72)

Even while I sit here compiling this list for the newsletter, Tom is probably assiduously pursuing new leads and the resulting documentation. While he is having the inevitable hot flashes that I suspect that he encounters during his research, I will be complacently typing up more of the previous findings that he has been sending me over the past two years. Already, there is enough data that has been collected by him to fill a book, and he isn't done! Our honorary Lifetime Member continues to support research on our boards, and diligently follows up on all leads and questions that are presented to him. Just a reminder: Part I can be found in the August 2001 newsletter Bette L. Bemis (#001)
